

BIO-FORTEXT

Enzymatic paste for enhancing the efficiency of washing

Recommended concentration: 10-50g preparation for 10kg clothing (1 tablespoonful for 50g approx.)

Areas and methods of usage: the paste for enhancing the efficiency of washing can be used as an additive for laundering greasy contaminated textile articles. Anoint the preparation directly onto the strongly contaminated surface like a film, soak it in water of 35-45°C for 30-60 minutes and do the washing with the appropriate technology. If soaking is not possible, wet the treated article, put the preparation onto it as described above and perform the laundering after a short while of resting. The preparation can be also added to the prewashing solution directly.

EU hazard symbol:

Flammability: not flammable.

Safety recommendations: use the preparation exclusively for its function in accordance with general labour hygienic and labour safety instructions.

H314 - Causes severe skin burns and eye damage.

H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled.

P260 - Do not breathe dust/fume/mist/vapours/spray.

P280 - Wear protective gloves / protective clothing / eye protection / face protection.

P301 + P330 + P331 - If swallowed: Rinse mouth. Do not induce vomiting.

P303 + P361 + P353 - If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water / shower.

P304 + P340 - If inhaled: Remove person to fresh air and keep comfortable for breathing.

P305 + P351 + P338 - If in eyes: Rinse cautiously with water for several minutes.

Remove contact lenses if present and easy to do. Continue rinsing.

Environmental protection: prevent the concentrated preparation from getting released to the environment by applying appropriate technology. The previously used washing solution can be discharged into public drains after being processed according to local regulations, depending on contaminations. 20-litre cleaned containers can be handled as municipal waste.

P501 - Dispose of contents/container in accordance with local regulations.

Storage: store the preparation in its original unopened package at a dry cool but freeze-free place, separated from foodstuffs, chemicals and forage. Comply with general instructions of storing chemicals.

P405 - Store locked up.

Packaging units: 5kg bucket.
