

FORTEXT

Paste for enhancing the efficiency of washing

Recommended concentration: 10-50g preparation for 10kg clothing (1 tablespoonful for 50g approx.)

Areas and methods of usage: the preparation is designed for professional use. Add it to the laundering solution or anoint the strongly contaminated surface with it like a film and, finally, do the washing with the appropriate technology.

EU hazard symbol:

Flammability: not flammable.

Safety recommendations: use the preparation exclusively for its function in accordance with general labour hygienic and labour safety instructions.

H314 - Causes severe skin burns and eye damage.

H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled.

P280 - Wear protective gloves / protective clothing / eye protection / face protection.

P301 + P330 + P331 - If swallowed: Rinse mouth. Do not induce vomiting.

P303 + P361 + P353 - If on skin (or hair): Take off immediately all contaminated clothing.

Rinse skin with water / shower.

P304 + P340 - If inhaled: Remove person to fresh air and keep comfortable for breathing.

P305 + P351 + P338 - If in eyes: Rinse cautiously with water for several minutes.

Remove contact lenses if present and easy to do. Continue rinsing.

Environmental protection: prevent the concentrated preparation from getting released to the environment by applying appropriate technology. The previously used washing solution can be discharged into public drains after being processed according to local regulations, depending on contaminations. 20-litre cleaned containers can be handled as municipal waste.

P501 - Dispose of contents/container in accordance with local regulations.

Storage: store the preparation in its original unopened package at a dry cool but freeze-free place, separated from foodstuffs, chemicals and forage. Comply with general instructions of storing chemicals.

P405 - Store locked up.

Packaging units: 20- and 5kg bucket, ?kg jar.

Produced and distributed by: INNOVENG 1 Kft.
