

INNO-DISH STAR

Manual washing-up detergent of disinfecting effect

Microbial spectrum: bactericide, yeasticide, fungicide.

Conditions of application:

For bactericidal and yeasticidal effect - concentration: 0.7-1%; temperature: 40°C; working time: 5 min.

For bactericidal and fungicidal effect - concentration: 0.5%; temperature: 40°C; working time: 15 min.

Areas and methods of usage: the product is designed for professional use. It is a foaming liquid detergent of disinfecting effect containing cationic tensides. It cleans and disinfects in one stage. The preparation can be applied in various areas of food industry, catering, health care, social support, etc., for manual washing-up and cleaning with a disinfecting effect. Prepare the work solution of the appropriate temperature by dilution and put it onto the surface or place the device, dish or other object to clean into the solution and maintain the contact until the working time elapses. The efficiency of cleaning can be enhanced by mechanical means. When the working time is over, the remains of the preparation should be removed by rinsing with drinking water.
