

## **INNOPON WASHING-UP POWDER**

For professional usage

**Conditions of application - optimum concentration:** 0.5-2.0%, depending on the extent of contamination (5-20kg for 10l of water); temperature: 25-45°C

**Areas and methods of usage:** the product is designed for professional use. It can be applied in various fields of industry, food industry, public meal providing and all other areas requiring an easy-to-use preparation of excellent degreasing property in non-disinfecting washing-up of industrial and household devices, dishes, etc. It can be also used for cleaning worktables, container stands and other similar objects. It is a great advantage of the product that, in spite of the high efficiency of degreasing, it does no harm to the hands; the hand protecting additive makes it feel pleasant. Put the prepared work solution onto the surface to clean or immerse the affected device in it. Cleaning can be made more efficient by mechanical means. After the washing-up, rinse the cleaned surface with drinking water.

**EU hazard symbol:**

**Warning:** hazard

**Flammability:** not flammable.

**Safety recommendations:** use the preparation exclusively for its function in accordance with general labour hygienic and labour safety instructions.
