

INNO-SEPT GEL EXTRA

Hygienic preparation for disinfecting hands

Microbial spectrum: bactericide (MRSA), fungicide, tuberculocide, virucide (also against H1N1).

Conditions of application: concentrated state; working time: 30 sec. (or until getting dried on).

Areas and methods of usage: the product is designed for professional use. It can be applied in all fields where it is necessary to disinfect hands. Put 3-5ml of the preparation from the flacon onto the dry palm and rub it evenly all over the hand surface to disinfect. Make sure to put sufficient quantity onto critical parts (crooks of the hand, nail beds, etc.). After the working time, the surface will be hygienically correct. Drying can be facilitated by fluttering the hands.

EU hazard symbol:

Warning: hazard

Flammability: category II

Safety recommendations: use the preparation exclusively for its function in the appropriate way according to general labour hygienic, labour safety and fire safety instructions. Do not apply it for treating mucous membranes, running wounds or skin surfaces near the eyes. In case of ingestion or getting into the mouth, rinse the conscious victim's mouth with water and call a physician to the premises immediately. Do not induce vomiting! Do not touch any electrical apparatus before the treated hand surface gets completely dried.

H319 - Causes serious eye irritation.

H225 - Highly flammable liquid and vapour.

P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P305 + P351 + P338 - If in eyes: Rinse cautiously with water for several minutes.

Remove contact lenses if present and easy to do. Continue rinsing.

P370+P378 - In case of fire: Use powder, carbon dioxide, water spray or alcohol-resistant foam to extinguish.

Environmental protection: prevent the preparation from getting released to the environment.

P501 - Dispose of contents/container in accordance with local regulations.

Storage: store the preparation in its original unopened container, separated from other chemicals, foodstuffs and beverages. Comply with general labour safety instructions of storing flammable chemicals.

P102 - Keep out of reach of children.

P403 + P235 - Store in a well-ventilated place. Keep cool.

Packaging units: 5l can, 1l flacon with a pump, 100ml flacon.

Produced and distributed by: INNOVENG 1 Kft.
