

INNUSZOL-G coolant
For two-circle and multicircle systems
With propylene glycol content

Areas and methods of usage: the product is designed for professional use. It is an aqueous solution mainly consisting of inorganic salts the crystallisation temperature of which is between -5 and -30°C, depending on the quantity of its ingredients. It can be applied as a carrier liquid for two-circle cooling systems. The preparation does not degrade due to its low content of organic substances; the corrosion inhibitor within it prevents corrosion. The preparation is suitable for primary filling of cleaned cooling systems and supplementing coolants. Do not mix it with another coolant or any kind of chemical because that would make the product lose its efficiency.

EU hazard symbol:

Warning: hazard

Flammability: not flammable

Safety recommendations: use the preparation exclusively for its function in accordance with general labour hygienic and labour safety instructions. In case of ingestion, get medical attention immediately and show this label; do not induce vomiting.

H315 - Causes skin irritation.

H319 - Causes serious eye irritation.

P261 - Avoid breathing dust/fume/gas/mist/vapours/spray.

P280 - Wear protective gloves / protective clothing / eye protection / face protection.

P301 + P330 + P331 - If swallowed: Rinse mouth. Do not induce vomiting.

P302 + P352 - If on skin: Wash with plenty of water.

P304 + P340 - If inhaled: Remove person to fresh air and keep comfortable for breathing.

P305 + P351 + P338 - If in eyes: Rinse cautiously with water for several minutes.

Remove contact lenses if present and easy to do. Continue rinsing.

P312 - Call a poison centre / doctor if you feel unwell.

Environmental protection: prevent the preparation from getting released to the environment; it can be discharged into public drains after being processed and neutralised in accordance with general and local regulations.

P501 - Dispose of contents/container in accordance with local regulations.

Storage: store the preparation in its original unopened container at a dry cool place protected from sunlight, separated from foodstuffs and chemicals. Comply with general instructions of handling and storing chemicals.

P102 - Keep out of reach of children.

Packaging units: 1m3 IBC.

Produced and distributed by: INNOVENG 1 Kft.
