

INNOPON-ALU-T

Industrial cleaner for degreasing aluminium
and colour metal objects with scattering procedure.
Low-foaming preparation.

Areas and methods of usage: the product is designed for professional use. It is a general-purpose solid degreasing cleaner of slight alkalinity. It can be applied in all fields where it is necessary to degrease iron, aluminium, zinc, copper and other colour metal surfaces. It is harmless to polished aluminium surfaces, even if kept in a boiling solution. The leached grease or oil swimming up to the top of the solution can be removed by skimming. We recommend the application of the preparation for scattering procedure. Prepare a work solution of the appropriate concentration and temperature, keep it in contact with the surface to clean during the working time and, finally, rinse the surface with water if necessary.

Recommended concentration: 1.0-3.0%

Recommended temperature and working time: 60-90°C, 3-30 min.

Recommended pressure of the nozzle: 1-2 bar

EU hazard symbol:

Warning: hazard

Flammability: not flammable.

Safety recommendations: use the preparation exclusively for its function in accordance with general labour hygienic and labour safety instructions.

H315 - Causes skin irritation.

H318 - Causes serious eye damage.

P280 - Wear protective gloves / protective clothing / eye protection / face protection.

P302 + P352 - If on skin: Wash with plenty of water.

P305 + P351 + P338 - If in eyes: Rinse cautiously with water for several minutes.

Remove contact lenses if present and easy to do. Continue rinsing.

P312 - Call a poison centre / doctor if you feel unwell.

P332 + P313 - If skin irritation occurs: Get medical advice/attention.

Environmental protection: the applied work solution can be discharged into public drains after being diluted and processed appropriately, depending on contaminations, in accordance with general and local regulations.

P501 - Dispose of contents/container in accordance with local regulations.

Storage: store the preparation in its original unopened container at a dry cool place, separated from foodstuffs and chemicals. Comply with general instructions of handling and storing chemicals.

P402 - Store in a dry place.

Packaging units: 25kg sack.

Produced and distributed by: INNOVENG 1 Kft.
