

## **INNOPON-CSAP**

Powdery cleaner for treating internal surfaces of canals and wastewater gullies as well as platforms contaminated by oil

**Areas and methods of usage:** the product is designed for professional use. It is a high-efficiency cleaner, primarily for loosening greasy contaminations encrusted in various platforms and internal surfaces of canals and wastewater gullies. It is suitable for cleaning and degreasing industrial drainpipes as well as removing other kinds of contamination.

**Conditions of application:** prepare a work solution of the preferred concentration by adding the appropriate quantity of the powder to the previously dosed water. Perform the cleaning process with this solution by pouring it into the canal and waiting until it flows down. Repeating it more times will ensure the removal of contaminations even from the wall of the canal. You can also scatter the powder itself into the deflector and add some warm water to it; the preparation will also dissolve and work that way. After cleaning, it is recommended to rinse the water spout with warm water to keep the substance diluting and reduce its incidental harmful effects.

**Recommended concentration and temperature:** 1.0-5.0%, 35-80°C

**EU hazard symbol:**

**Warning:** hazard

**Flammability:** not flammable.

**Safety recommendations:** use the preparation exclusively for its function in accordance with general labour hygienic and labour safety instructions.

H314 - Causes severe skin burns and eye damage.

H335 - May cause respiratory irritation.

H290 - May be corrosive to metals.

EUH031 - Contact with acids liberates toxic gas.

P261 - Avoid breathing dust/fume/gas/mist/vapours/spray.

P271 - Use only outdoors or in a well-ventilated area.

P280 - Wear protective gloves / protective clothing / eye protection / face protection.

P301 + P330 + P331 - If swallowed: Rinse mouth. Do not induce vomiting.

P303 + P361 + P353 - If on skin or hair: Take off immediately all contaminated clothing.

Rinse skin with water / shower.

P304 + P340 - If inhaled: Remove person to fresh air and keep comfortable for breathing.

P305 + P351 + P338 - If in eyes: Rinse cautiously with water for several minutes.

Remove contact lenses if present and easy to do. Continue rinsing.

**Environmental protection:** the applied work solution can be discharged into public drains after being processed and neutralised appropriately, depending on contaminations, in accordance with general and local regulations.

P501 - Dispose of contents/container in accordance with local regulations.

**Storage:** store the preparation in its original unopened container at a dry cool but freeze-free place protected from sunlight, separated from foodstuffs, acids and oxidants. Comply with general instructions of storing chemicals.

P102 - Keep out of reach of children.

P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.

**Packaging units:** 25- and 5kg sack.
