

## **Inno-sept Fresh Disinfecting Wet Wipe**

**Microbial spectrum:** bactericide (MRSA), yeasticide, virucide, tuberculocide.

**Areas and methods of usage:** the product is designed for professional use. It can be applied in various fields of private and public health care, catering and other services. As well as disinfecting hands hygienically, it is also suitable for cleaning and disinfecting devices, objects, worktables and other surfaces. Wipe the dry or slightly wet surface all over with the wet wipe evenly for 30 seconds (minimum working time: 30 sec.; for the tuberculocidal effect: 1 min.; for disinfecting solutions: 5 min.). For stronger contaminations, we recommend the usage of more wet wipes in succession or the preliminary application of a more intensive preparation for washing hands (Manuela) and disinfecting surfaces (Innofluid-Alk-M), respectively.

**Flammability:** category II

**Safety recommendations:** in case of eye contact, rinse with water cautiously for several minutes.

P102 - Keep out of reach of children.

**Environmental protection:**

P273 - Avoid release to the environment.

P501 - Dispose of contents/container in accordance with local regulations.

**Storage:** store the preparation in its unopened package at a place protected from heat.

P403 + P235 - Store in a well-ventilated place. Keep cool.

**Packaging units:** 50 sheets/box.

**Produced and distributed by:** INNOVENG 1 Kft.

**Address:** H-1114 Budapest, Szabolcska M. u. 5.
